2. From the MD., HMWSSB Lr.No:HMWSSB/MD/KDWSP Ph-I-II-III/Emergency-Pumping/2024-25, dated:15-04-2024.
3. From the CEO, Telangana, GA (Elections) Dept., U.O.Note.No.4457/Elections.A/A3/2024, dated: 12.05.2024.

**-000-**

**ORDER:**

In the reference 2<sup>nd</sup> read above the Managing Director, Hyderabad Metropolitan Water Supply and Sewerage Board, Hyderabad has informed that, a joint meeting was convened by Principal Secretary, MA&UD, Principal Secretary, RWS & PR Department, Secretary, I&CAD Department, along with Engineer-in-Chief and Chief Engineers of I&CAD, RWS, PH&MED and HMWS&SB on 24.02.2024 and discussed about probable depletion of water levels in various major reservoirs of Krishna basin and Godavari basin. In the said meeting the HMWSSB was directed to make necessary emergency pumping arrangements for drawl of water below the dead storage from Nagarjunasagar Reservoir and Yellampally Barrage to maintain uninterrupted drinking water supply to Hyderabad City and surrounding Urban Local bodies.

2. Earlier when the water levels reached the MDDL of Nagarjunasagar Reservoir only HMWSSB used to draw the dead storage through its regular emergency pumping arrangements. Whereas, this year as 5 TMC water is being released from the storage below the MDDL, the I&CAD has advised HMWSSB that additional emergency pumping arrangement at 2<sup>nd</sup> stage level through movable Barge Mounted Pumping System may be erected in the reservoir waters so as to draw the required raw water even below the 500 ft which may likely to occur during this summer period.

3. The Managing Director, Hyderabad Metropolitan Water Supply and Sewerage Board has submitted that, though the regular emergency pumping arrangement is placed in position at the 510 ft. level on foreshore ground, as per the advise of I&CAD in the meeting on 12.04.2024, the movable Barge Mounted Emergency Pumping is proposed to draw 600 cusecs of pumping equipment with electrical motors, panels, cables, suction pipes, floating delivery pipes mounted on movable Barge with walkways, transformers etc. at a cost of Rs.71.50 Crores to ensure uninterrupted water supply to Hyderabad City from Krishna Schemes.

4. In view of the above constraints of timelines and precarious water supply position during the summer 2024, the Managing Director, Hyderabad Metropolitan Water Supply and Sewerage Board has requested the Government to permit HMWSSB to take up the Barge Mounted Emergency Pumping Arrangement as 2<sup>nd</sup> stage within the reservoir water through M/s.MEIL, Hyderabad, agency of Sunkishala Intake Well Project as supplemental item under the agreement No.09/CGM(E)/PCC-II/Sunkishala-Intake-PS/2021-22, dated: 11.06.2021.

::2::

5. After careful examination of the matter, Government and after obtaining permission from Election Commission of India / Chief Electoral Officer, Telangana vide reference 3<sup>rd</sup> read above hereby accord permission to Managing Director, Hyderabad Metropolitan Water Supply and Sewerage Board to take up the Barge Mounted Emergency Pumping Arrangements as 2<sup>nd</sup> stage within the Nagarjunasagar with a cost of Rs.71.50 Crores Reservoir to ensure uninterrupted drinking water supply to Hyderabad City and its surrounding areas during Summer-2024 through the existing agency of Sunkishala Intake Well Project, i.e., M/s.MEIL, Hyderabad, as supplemental item, under the agreement No.09/CGM(E)/PCC-II/Sunkishala-Intake-PS/2021-22, dated: 11.06.2021, as requested by the Managing Director, Hyderabad Metropolitan Water Supply and Sewerage Board, Hyderabad

6. The Managing Director, Hyderabad Metropolitan Water Supply and Sewerage Board, Hyderabad shall take necessary further action in the matter.

(BY ORDER AND IN THE NAME OF THE GOVERNOR OF TELANGANA)

M. DANA KISHORE  
PRINCIPAL SECRETARY TO GOVERNMENT

To  
The Managing Director, Hyderabad Metropolitan Water Supply and Sewerage Board, Hyderabad.
